

INTRODUCING

CreelMT™

AUTOMATED YARN CREELING SYSTEM

MODRA TECHNOLOGY, innovators in soft flooring solutions, has launched the evolutionary automated yarn creeling system, **CreelMT™** for tufted carpet manufacturers.

The CreelMT is under patent protection.

AN AUTOMATED SYSTEM THAT WINDS YARN TO LENGTH AND USES ROBOTICS TO LOAD THE FULL PACKAGE OF YARN INTO A MOBILE CREEL.

OUR SYSTEM COMBINES:

INTRODUCING

CreelMT™

AUTOMATED YARN CREELING SYSTEM

FEATURES:

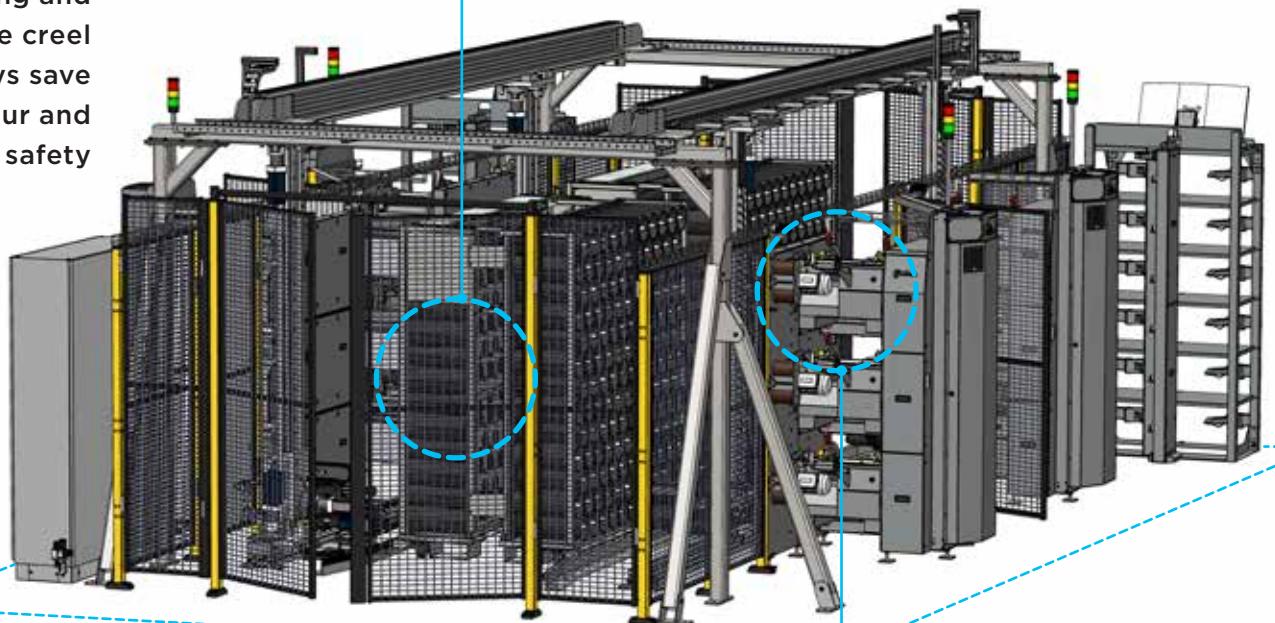

- Suitable for many types of tufting machines
- Gilbos precision winders accurately measure yarn length and reduce waste
- CreelMT system configured to meet your needs
- Automation & robotics to reduce manual handling and improve safety
- Compact – takes 50% of fixed creel floor-space

“CreelMT is unique and in some respects it's not revolutionary but evolutionary. We've drawn together a number of existing technologies - mobile creels, precision winding of yarn, integration with CAD systems and robotics - into one complete system and created an automated, robotic yarn package handling system as a smart alternative to the traditional fixed creel.”

BENEFITS:

**MAKE SHORTER PRODUCT RUNS
MORE ECONOMICALLY**

Robotic package handling and mobile creel trolleys save labour and improve safety

CreelMT™

The CreelMT is under patent protection.

Takes 50% of fixed
creel floor-space

Reduce waste to 2-5%
with precision winders
that accurately measure
the yarn length required

WORLD LEADERS IN CARPET MANUFACTURING TECHNOLOGY

WHY CHOOSE MODRA TECHNOLOGY

Expertise in developing smart solutions to problems in the soft flooring industry

Responsive with remote support & local technicians (AUS, USA, CHINA & EU)

30 years' experience, trusted and well known to deliver

Proven global results with machines sold across 40+ countries

GLOBAL SALES OF MODRA MACHINERY

Argentina
Australia
Belgium
Brazil
Bulgaria
Canada
China

Denmark
Egypt
Estonia
France
Germany
Holland

Hong Kong
India
Indonesia
Ireland
Israel
Italy

Japan
Korea
Malaysia
Netherlands
New Zealand
Poland

Portugal
Saudi Arabia
South Africa
South Korea
Spain
Sweden

Switzerland
Thailand
Turkey
UAE
UK
USA

MODRA TECHNOLOGY CARPET INNOVATIONS MADE SIMPLE

PRODUCTION

Developing production solutions to optimise output and delivery

SAMPLING

Custom-made machinery for sample runs resulting in zero downtime on production

FINISHING

Professionally finished carpet samples that show your designs in their best light

BOOK A CreelMT™

VIRTUAL PRODUCT DEMONSTRATION to understand the benefits for your business.

WORLD LEADERS IN CARPET MANUFACTURING TECHNOLOGY

As global leaders in soft flooring innovation, Modra Technology's machine solutions have provided carpet manufacturers with the speed and agility to respond to customers' changing needs for over 30 years.

Working collaboratively with customers, Modra's engineering and technology expertise delivers production, sampling and finishing machinery solutions for the global carpet manufacturing industry.
